MID-OHIO FOODBANK

Recovering Specialty Materials: “WASTED FOOD”

Association of Ohio Recyclers Conference

10.25.16
FOOD WASTE IN AMERICA

- Estimated 70 million pounds of food is wasted in America today.
- 25-40% of food grown, processed and transported in the US will never be consumed.
- More food reaches landfills and incinerators than any other single material.

FOOD INSECURITY

- 1-6 Ohioans are food insecure, which means most of the time they are choosing between paying bills and buying foods.
- Of our pantry clients that we serve 35% are children and 12% are seniors.
- MOF and our partner agencies provide more than 150,000 meals per day to food pantries, soup kitchens, shelters, and low-income senior residences.
- 75% of individuals that utilize our services only come 3-4 per year. The majority of people are not taking advantage of the system and are only participating when they have to.
Mid-Ohio Foodbank’s mission is to end hunger one nourishing meal at a time and to co-create a sustainable community where everyone thrives.

REDUCE FOOD WASTE. FEED PEOPLE FIRST!
WHERE DOES THE FOOD COME FROM?

- **Local Businesses** – Manufactures, Wholesalers, Distributors, Retailers, Processors, and Farmers.
- **National Businesses** – Feeding America solicits donations from National donors for the food banking network.
- **USDA and Ohio Government**
- **Sharing** – Work with other Food Banks throughout the Feeding America Network.
- **Purchase** – Brokers, manufactures & distributors.
